## WHY BEIRUT?

### The Eternal Magic of Beirut

For many of us, it's synonymous with war and strife. But for the artists, chefs, designers, architects and scholars who live there, Beirut will always be a place where ideas and beauty flourished ... and flourish still.

Beirut. It's one of the oldest cities in the world and was, for a period, considered to be the Paris of the Middle East. These days, it is affectionately referred to as "Bey," and, quite frankly, resembles Miami by way of Portland more than it does the City of Light. Beirut remains a hub for Levantine history combined with stunning juxtapositions: green hills, a sea-cradled peninsula, labyrinthine streets, neglected architecture—from Arabesque to Venetian Gothic—high-rises, old mosques, churches and palaces, and much more.
